UMA CONVERTER LIMITED

AN ISO 9001 : 2015 & ISO 22000 : 2005 CERTIFIED COMPANY

Manufacturer of Flexible Packaging Materials

ABOUT US

OVERVIEW

Since its inception in 1999, UMA Converter has been the leading manufacturer and exporter of Flexible Packaging Material offering a wide range of customized packaging solutions for various industries such as food, beverages, pharmaceuticals, personal care and many more.

Strong business values are responsible for transforming UMA Converter into a leader in providing quality packaging solutions rightly coupled with innovation.

The company has a state-of-the-art manufacturing facility equipped with highly sophisticated machineries.

Defining our consistent growth and continued success is a highly experienced and a talented professional team working untiringly towards meeting the prime objectives of the company.

VISION

To become innovative, customer-focused & efficiency driven packaging company to serve global packaging standards.

MISSION

To delight the products, our customers and finally the end-consumers with intelligent packaging solutions.

VALUES

- ✓ **INNOVATION**
- ✓ **EXCELLENCE**
- ✓ **TRUST**
- ✓ **QUALITY**
- ✓ **INTEGRITY**
- ✓ **ACCOUNTABILITY**

OUR OFFERINGS

UMA Converter has a highly experienced technical team dedicated towards designing flexible packaging solutions for various applications. Our products are crafted out of an extensive range of industry-approved materials such as PET, BOPP, PE, CPP, Foil, Paper, **Biodegradable & Compostable films** and many more based on customers' requirements.

RESEARCH AND DEVELOPMENT

Research and Development forms the core of quality packaging material production. Our team is involved in several R & D activities and is therefore able to offer the most unique solutions to our clients. We understand our clients' need, based upon which a packaging solution can be suggested.

Once the packaging material is selected, it undergoes several stages of testing at our R & D center equipped with the latest testing tools.

UMA Converter also has a team of design experts offering the most precise design suggestions that rightly fit the nature of the product in question. As a result, our client is able to get the most desirable packaging solution.
